

AVI MISHRA

Ahmedabad, Gujarat | +91 9925919357 | aviam2425@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results driven Full Stack AI/ML Developer driven to build efficient, scalable, and impactful systems. Combines strong fundamentals in Computer Science core subjects with hands-on expertise in the MERN stack and Python. Experienced in deploying production-grade AI pipelines—ranging from training machine learning models and engineering custom NLP algorithms to hardening LLM conversational agents and optimizing response latency. Blends technical problem-solving with a user-centric perspective to deliver high-performance software

EDUCATION

Pandit Deendayal Energy University

B.Tech, Computer Science Engineering | CGPA: 8.22/10

July 2023 – July 2027

Gujarat, India

Maharaja Agrasen Vidyalyaya

Class X (CBSE) | 86.2% | Class XII (CBSE) | 84%

Ahmedabad, Gujarat, India

2020 – 2022

EXPERIENCE

Software Developer Intern — Upteky Solutions Pvt. Ltd.

May 2026 – July 2026

- Hardened a production chatbot/voicebot against prompt injection and jailbreaks by redesigning system prompts with layered instruction hierarchy and refusal policies; optimized the AI pipeline via de-duplication and response streaming, cutting per-interaction cost and perceived latency.
- Audited and remediated multiple client websites on WordPress/CMS platforms, reducing page load times by 17–20% via CMS caching, JS/CSS minification, and asset-loading restructuring; verified Lighthouse performance and SEO gains through repeat audits.
- Designed and shipped an end-to-end social-media automation pipeline in n8n (RSS + knowledge base → OpenAI text/image → email approval gate → Twitter/LinkedIn publishing).
- Conducted white-box testing of two enterprise applications across 16 functional areas and 7 role-based accounts; documented 24 severity-classified defects, including 3 release blockers, and diagnosed a missing database composite index responsible for two critical failures.

PROJECTS

CareerCompass AI | React.js, Node.js, Express, MongoDB, Flask, Python, spaCy, scikit-learn, JWT | [GitHub](#) | [Demo Link](#)

- Built a 3-service career guidance platform using React, Express, and Flask, integrating JWT authentication, MongoDB analysis history, PDF report export, and Gemini-powered resume guidance.
- Engineered a 2-pass NLP pipeline using spaCy and alias normalization, supporting 174 unique skills, 36 alias mappings, and 12 career profiles to identify relevant roles and skill gaps.
- Developed job-description matching using 40% TF-IDF cosine similarity and 60% skill coverage, processing descriptions up to 8,000 characters and returning the top 10 missing keywords.
- Trained a 200-tree GradientBoostingRegressor using 10 features on 480 synthetic training samples, achieving $R^2 = 0.866$ and 7.00-point MAE on 120 held-out synthetic samples—a 65.6% MAE reduction versus a training-mean baseline.

DripStore | React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Cloudinary, Docker | [GitHub](#) | [Demo Link](#)

- Built and deployed a MERN e-commerce platform with JWT authentication, role-based access, guest carts, and an admin dashboard for products, inventory, and orders.
- Integrated Razorpay verification, signed webhooks, and MongoDB transactions to prevent duplicate inventory deductions and recover interrupted payments.
- Added 45 automated tests—27 backend and 18 frontend, configured GitHub Actions checks, and deployed a Docker-based demo on Render with simulated payments.

TECHNICAL SKILLS

- **Languages:** Java, C/C++, Python, JavaScript, SQL, HTML/CSS
- **Frameworks and Libraries:** React.js, Node.js, Express.js, Flask, Tailwind CSS, Scikit-learn, Streamlit
- **Databases and Cloud:** MongoDB, MySQL, Firebase Firestore, AWS
- **Tools:** Git, GitHub Actions, Docker, Postman, VS Code, Vitest, React Testing Library, n8n, Google Lighthouse
- **Core CS:** Object-Oriented Design, Data Structures & Algorithms (Java), Operating Systems, Computer Networks, DBMS

EXTRACURRICULAR

- Editor-in-Chief, Video Graphic Association (VGA), PDEU — led the editing team, managed end-to-end video production.
- Edited a short film nominated in the IFP 50 Hour Filmmaking Challenge 2024 (Premiere Pro, DaVinci Resolve).
